

STONY PLAIN SUN.

VOLUME SIX

STONY PLAIN, ALBERTA, THURSDAY, AUG. 20, 1925

Whole Number 263

CHAT-R-FREE,

The New and Complete Oil for Fords.

Some Oil will Partly Lubricate.

CHAT-R-FREE will Do It Right.

One gallon Free to first 3 customers bringing in this advertisement.

A. E. MICHAEL,
A GOOD PLACE TO TRADE.

Price of Binder Twine

Although a short time ago there appeared to be a probability of a shortage of binder twine for this district, this difficulty has now been overcome, and there is plenty of twine in sight. Twine prices are the lowest in years. This is due to fibration, and in New York and Mexico raising their prices. The local distributor is working on a profit of less than one-half cent per pound, which, taking into consideration the risk of bad debt, deterioration, unsold quantities and interest, cannot yield a healthy profit.

Farm Help Supply

The demand for help by farmers, which had been fairly insistent last week, fell off somewhat after the rainstorm of Friday, but is fairly good again, with farm hands asking up to \$3.50 per day.

All the municipalities have been requested by the Provincial Government to release as many men as possible for harvest work in order to keep the number of unemployed help down to a minimum. Also, the aim is to get any necessary farm hands from B. C. instead of the East, as investigations have shown that men from the Coast return to logging camps during winter, while those from the East flock to the cities and become a charge.

It is generally known by farmers that when help is needed, they should apply to a Government Farm Agent. O'Brien, the nearest one to Stony Plain, is in Edmonton, Phone 3385.

Horticultural Show

The Women's Institute will hold a Horticultural Show on Saturday next, July 22nd, in Ducholke's Hall. The following rules will govern the proceedings:

- All flowers in all classes must be grown by exhibitor.
- A flat rate of 25c to be charged which permits the exhibitor to enter in any number of classes.
- All exhibits to be in place at noon on day of the show.
- Containers must be brought by exhibitors.

The following classification was decided on—

- Planted plants
 - foliage plant
 - plant in bloom
 - hanging basket
 - collection of house plants, not less than 2

- Cut Flowers
 - Sweet peas, best collection, 3 of each variety
 - Dahlia
 - Gladiolus
 - Pansies; not more than 8 varieties
 - Bouquet of cut flowers; to be judged by artistic arrangement
 - Aster, any variety
 - Collection of cut flowers; not more than 12 varieties in separate containers

- Table decorations, floral, in glass containers. Taken into consideration in judging.

Prize List—Class I—1st, 2nd, 3rd, 4th, 5th, 6th, 7th, 8th, 9th, 10th, 11th, 12th, 13th, 14th, 15th, 16th, 17th, 18th, 19th, 20th, 21st, 22nd, 23rd, 24th, 25th, 26th, 27th, 28th, 29th, 30th, 31st, 32nd, 33rd, 34th, 35th, 36th, 37th, 38th, 39th, 40th, 41st, 42nd, 43rd, 44th, 45th, 46th, 47th, 48th, 49th, 50th, 51st, 52nd, 53rd, 54th, 55th, 56th, 57th, 58th, 59th, 60th, 61st, 62nd, 63rd, 64th, 65th, 66th, 67th, 68th, 69th, 70th, 71st, 72nd, 73rd, 74th, 75th, 76th, 77th, 78th, 79th, 80th, 81st, 82nd, 83rd, 84th, 85th, 86th, 87th, 88th, 89th, 90th, 91st, 92nd, 93rd, 94th, 95th, 96th, 97th, 98th, 99th, 100th, 101st, 102nd, 103rd, 104th, 105th, 106th, 107th, 108th, 109th, 110th, 111th, 112th, 113th, 114th, 115th, 116th, 117th, 118th, 119th, 120th, 121st, 122nd, 123rd, 124th, 125th, 126th, RED ROSE COFFEE "is good coffee"

"There Is No Argument Against Safety"

One of the baldest sections of the world today, if, indeed, not the baldest, are these prairie provinces of Canada. From early morning until late at night, men and women, too, not by tens of thousands alone but hundreds of thousands, will be engaged in harvesting the great grain crops of the West. Tens of thousands of helpers from Eastern Canada and the Pacific coast are here to help in the huge task. Thousands of horses and millions of dollars worth of machinery are being employed. It is a time of hard work, but it is also a time of satisfaction as the results of a year's toil are garnered.

The very magnitude of the task, and the large numbers of people engaged, call for the taking of precautions against accidents. "Safety First" should be the motto of all. As a writer in the American Red Cross Courier says, there is no argument against safety. No one ever heard of safety filling hospitals or graves, or destroying property, or resulting in loss of any kind. It is the failure to exercise due caution, that causes these disasters.

Not a year passes but the annual Western harvest takes its toll of life, of others crippled and maimed for life, of property destroyed. The practice of "Safety First" will prevent most of these calamities.

Millions of acres of ripened grains and grasses present untold possibilities of loss if every care is not exercised to prevent fires from starting. Once started there is no telling to what awful dimensions they may spread, resulting in loss not only of crops but of homes and other possessions and possibly life itself. It may require a little extra time and labor to take proper precautions, but it is the cheapest possible form of insurance.

Binders, mowers, threshing machine outfits are powerful agents not only for harvest operations, but for putting off arms and legs if care is not exercised to keep out of the way of such moving machinery. Wherever possible cogwheels, moving belts, knives and gears should be protected, not that they need protection, but because the workers need to be protected from them. It should be borne in mind by the employing farmer that many of his harvest help may have had no previous experience about, or in the handling of machinery.

The straight-thinking man respects safety; he knows its real value. Down through the ages this has been repeated over and over again. It is the fool who rushes in where angels fear to tread, who forgets ahead regardless of consequences to himself or his fellowmen. Speed is all right in its place, but its place is not in attempting a level crossing in front of an approaching express train. Nor is it in saving the time necessary to plough a freguard.

The farmer who at great labor and expense ploughed his fields, sowed seeds, has seen his crop pass safely through all the vicissitudes of weather, insured it against hail, and provided the machinery and help to harvest it, will not now in the final rush of harvest operations, if he is wise, neglect any precaution that can be taken to protect it, or the men harvesting it, from disaster.

But it is not the farmer alone who should give heed to the fact that there is no argument against safety. Several thousand elevators are manned and ready to take in the grain. They will be worked at high pressure, and under such conditions there is always the danger of a lessening of vigilance. It is better to be safe than sorry.

And as the grain is marketed the busy time for the railways and their armies of employees is reached. Weeks have been spent in putting roadbed, motive power, rolling stock into first-class shape to meet the strain. The number of trains moving day and night will be largely increased. Railway management fully recognize the importance of always applying Safety First principles. So do railmen. But at no time is it more important that such principles be rigidly adhere to and enforced through the voluntary co-operation of each individual than when all are working at high pressure and carrying a peak load.

An old Chinese proverb says: "To save one man's life is better than to build a seven-storied pagoda."

Remarkable Fire Extinguisher

Tanks Loaded With Carbon-Dioxide Gas Literally Freeze Flames
Fire extinguishers that will literally freeze a fire to death, while covering the burning area with a dense gas, which bars all air and oxygen on which the flames might feed, have been devised for fighting switchboard fires, and also for oil tankers and other ships where fire in the cargo hold present a serious problem. The extinguishers, which are merely tanks loaded with the carbon-dioxide gas (such as is used at soda fountains) to carbonate the water, eliminate the water damage which forms one of the greatest losses in ordinary fire fighting.

Trans-Atlantic Air Service

London to New York in 38 Hours is Plan

Plans for a trans-Atlantic aeroplane service, using double decker planes with accommodation for 150 passengers and capable of making the run from London to New York in 38 hours, have been announced by Joseph Narver, veteran British aircraft designer.

According to the designer, the planes will have a wing spread of 185 feet. They will be equipped with nine 450 horsepower engines each, and will provide spacious accommodation for passengers.

The fare for a single trip will be about 65 pounds sterling per passenger.

Proved safe by millions and prescribed by physicians for

Headache Neuralgia Colds Lumbago
Pain Toothache Neuritis Rheumatism

Safe Accept only "Bayer" package which contains proven directions. Handy "Bayer" boxes of 12 tablets Also bottles of 24 and 100—Druggists.

Aspirin is the trade mark (registered in Canada) of Bayer Manufacturing of Monroeville, Pa., U.S.A. and is the only name of Bayer's Aspirin. The Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

Cannot Ask Fancy Prices

Court in Potsdam Fined Guide For Overcharging Tourist

Six dollars is too much for any guide to charge for taking tourists through Sans Souci Castle, and other sights of Potsdam, is the opinion of the court of appeals. Guides for tourists are not a luxury, as held by the lower court whose decision was reversed, but a daily necessity, and therefore cannot command fancy prices.

The case arose out of a difference some months ago between a party of Englishmen and a Potsdam guide named Max Schulz. The guide had charged 25 marks for taking the party around, whereas the Englishmen appealed to the courts. The lower court believed that anybody who can afford a guide is rich enough to pay whatever the guide may charge. The state's attorney held, however, that Germany, and especially Potsdam, have every reason to encourage the travelling public, and that overcharges like these were calculated to make people shun Potsdam, thereby ruining its tourist business.

The higher court agreed with the state's attorney, reversed the decision and assessed a fine of 20 marks.

Painful Sprains, Bruises, Restored By Nerviline

There is nothing power in Nerviline that has made it famous for nearly fifty years past. It sinks in deeply, it penetrates quickly, it takes away the pain, it restores the nerves, it gives relief to bruised, aching muscles. If your joints are stiff and you are suffering from Rheumatism or Lumbago; if Neuralgia bothers you now and again, use trustily old "Nerviline." It works wonders, whether the pain is internal or external. Get a large 35-cent bottle from your dealer today.

Appreciate Programmes Near Home

Radio fans over the country are losing something of their original zest for long distance and are coming to appreciate more fully the excellent programmes their own nearby broadcasting stations. It is in this direction that radio progress is to be made.

Reduced By Asthma. The constant

strain of asthma brings the patient to a small state of nervous exhaustion. Early use should by all means be made of the famous Dr. J. D. Kellogg's Asthma Remedy, which more than any other acts quickly and surely on the air passages and brings blessed help and comfort. No home where asthma is present in the least degree should be without this great remedy.

Home Grass Grows Greener

A marked decline in migration from Canada to the United States is reported. The green fields at a distance frequently assume a blue tint when reached—Vancouver Province.

Miller's Worm Powders, being in demand everywhere, can be had at any chemist's or drug shop, at very small cost. They are a reliable remedy for worm troubles and are very effective upon to expel worms from the system and abate the sufferings that worms cause. Many mothers rejoice that they found available so effective a remedy for the relief of their children.

Grow Tomatoes

Experiments conducted by the French Government have shown that pure sulphur has an extremely large value as fertilizer for such plants as potatoes, tomatoes and parsnips.

Sweet and palatable, Mother Graves' Worm Exterminator is acceptable to children, and it does its work surely and promptly.

Travelled Twenty-eight Miles

Mouse Had Long Run Through Peculiar Accident

A very strange accident befell a mouse in a New England household. A boy hung his bicycle from the ceiling of the cellar, not far from a swinging shelf on which food was kept. A mouse jumped from the wall to the tire of the front wheel, evidently hoping thereby to reach the shelf.

The wheel started, and the mouse naturally ran toward the highest part of it. It was able to stay on the top of the tire, but could not get enough of a foothold to jump to the wall. When found the next morning, it was very much exhausted, though still running. The cyclistometer showed that it had travelled more than twenty-eight miles.

Poland Evicting Germans

Great Misery and Distress Prevails in Refugee Camp

Heartrending scenes are being witnessed in the great camp established to receive the thousands of Germans Poland has ordered to cross her borders back into their homeland, because in the Upper Silesian plebiscite of 1920 they favored retention of the territory by Germany.

Great misery prevails among its repatriated Germans, men, women and children, most of whom are in dire distress and impoverished by reason of the fact that all their possessions have vanished.

Added to their misery is the fact that the refugees' camp is already overcrowded. A second camp must be erected somewhere else if Poland should make good her threat of forcible eviction.

It will be almost impossible to provide homes for the repatriated as there already is a dearth of dwelling buildings throughout the country.

Indian Race Not Dying Out

Forty-three Thousand Live on Their Own Farms

Lovers of the Indian—and the number of them increases as we study him dispassionately and review the history of our dealings with him—will be glad to know that he is not vanishing but gaining. The full-bloods are holding their own, and those of mixed blood are increasing at the rate of a thousand a year. Forty-three thousand live on their own farms, and western banks hold \$25,000,000 of Indian money. Of eighty thousand Indian children of school age, sixty-five thousand are in school—a larger proportion than among white children. So the outlook for the boy who goes west to exterminate the redskins is most unpromising—Youth's Companion.

There may be other corn removers, but you will not be completely satisfied until you have used Holloway's Corn Remover.

Newed—"My dear, I think you should have used a little soda in this cake."

His Bride—"I will next time. What flavor do you like, raspberry or pineapple?"

Minard's Liniment for Dandruff

The U. S. Government has sent dentists to Alaska to care for the teeth of Eskimos and Indians.

While the automobile has succeeded in displacing the horse, the nightmare still carries on.

Use X-rays To Find Pearls

The X-ray is used in examining unopened oysters in pearl fisheries. This is a very economical proceeding, for oysters which are found by the X-ray to be without pearls may be returned to their beds unopened, in the hope that they may later produce pearls.

BLEMISHES OF THE SKIN

Are Proof the Blood is in a Weak and Watery Condition

One of the surest signs that the blood is out of order are the pimples and unsightly eruptions that break out on the face or body. The same condition is indicated by an attack of eczema of the scalp. You cannot get rid of these troubles by the use of purgative medicines, as so many people try to do. Purgatives merely sap the strength of the system and leave it still weaker. What is needed when the blood is shown to be out of order is a tonic which will restore its missing elements and leave the blood rich and red. For this purpose there is no other tonic can equal Dr. Williams' Pink Pills, every dose of which helps enrich the blood, drives out impurities, and brings a new feeling of health and energy. Mrs. R. E. Bligh, Hawthorne Ave., Hamilton, Ont., tells for the benefit of others what these pills did for her. She says: "I was suffering terribly from eczema. I was tormented with several doctors, but without success. My complexion was sallow, I had no strength, feeling very weak and languid. My neck was full of lumps called scrofula, and at times they were very painful. After trying several so-called blood medicines, Dr. Williams' Pink Pills were recommended to me and I got them a dozen boxes. After taking them I found a decided improvement in my appearance, and to my joy the lumps were disappearing from my neck. I persevered in the treatment, and finally the only sign left of the trouble was a scar on my neck where one of the swellings broke. Since that time I have been able to boast and heartily recommend Dr. Williams' Pink Pills to any suffering from impure blood."

You can get these pills through any medicine dealer or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

With His Hands Tied

That a young fellow can swim across Toronto Bay—two miles more or less—with both hands and feet tied together, is a stunt that may safely be left to that kind of fellow, or be tried with reliable rescue escort, but it shows that it can be done, and that one need drown simply because he finds himself in deep water with his clothes on.—Owen Sound Sun-Times.

Fresh and carefully packed in pure olive oil. Keep a stock in the pantry for easily prepared, enjoyable meals.

KING OF THE SARDINES

Making Paper From Straw May Ultimately Become An Important Industry in the West

The future of the paper industry, and, indeed, the future of the whole trade of printing, has often caused anxiety for those closely connected with either, owing to the diminishing supply of paper material from wood. The United States has become the greatest consumer of paper in the world, and as its own soft-wood supplies have neared exhaustion, the Canadian forests have been more and more drawn upon. This has created an immense export trade in pulp and paper, which is at present of vital importance in maintaining Canada's favorable balance of trade. The report of the commission which recently investigated the pulpwood situation in Canada showed that the viable supply of wood was in danger of exhaustion within some thirty to fifty years, according to conditions in different provinces. After that, what? That was the question.

Recently The London Morning Post published an issue on paper made from straw, and the information given in that connection is of the greatest importance. The paper was made by De Valine's straw-pulp process, which seems to have lifted the question, at once from theory to practice. "The trouble in the past with straw paper has been its brittleness, but ten years of experiment have overcome this difficulty, using as chemicals only common salt and lime. This has been carried out in French factories, and according to The Post, it is to be continued on a large scale in Canada."

If straw becomes the raw material for paper, Canada's position will be entirely satisfactory, as it will mean the use of an enormous by-product of farming which is now wasted. It is estimated that seven million tons of straw are burned annually in Canada alone. In Eastern Canada there is use for straw in connection with the livestock industry, but in the west the burning of the straw after harvest and threshing every autumn, making a trail of fire night by night from the Ontario boundary to the Rockies, is a sad feature of the "unimproved" industry. The advent of straw paper making will bring additional revenue, more employment, preserve a great industry for the world, and retain an export trade for Canada of first importance. The Post does not supply comparative figures of cost, nor suggest that straw may be a competitor of wood while the latter remains plentiful. The paper industry has been one of the most progressive in the whole realm of manufacturing in the past few years, and it may be assumed that the new sources of raw material will be used with the keenest intelligence.—Toronto Globe.

Reported Damage

By Wheat Root Rot

Matter Being Investigated By Dominion Plant Pathologist

Reports of damage to wheat by root rot, a fungus disease which first became evident in Saskatchewan two years ago, are being investigated by the Dominion plant pathologist, W. P. Fraser, Saskatoon. "While sufficient data are lacking as yet to form conclusions, it is believed to be confined to the park country in Northeastern Saskatchewan. One farmer north of Humboldt is reported to have sustained 75 per cent. damage to a crop which had promised 35 to 40 bushels to the acre. The disease causes the straw to yellow and ripen before the heads fill. It is believed that it is at its worst two or three years after ground is first broken, gradually dying out with continued cultivation. Two field men are covering a large area, at present, in the investigation."

In the salt mines of Galicia, tunnel and great chambers have been dug aggregating a total length of thirty miles. Many of the miners live on the lower levels, where they have huts and rarely come to the surface.

The ambassador of the United States to France receives a salary of \$17,500 a year, every cent of which he pays to his landlord in Paris as rent for the house that the embassy occupies.

W. N. U. 1999

Growth in Manitoba

Some Facts Concerning Agricultural and Dairy Products of Province

In a recent address to the St. Boniface Division Club, J. H. Evans, deputy minister of agriculture for Manitoba, gave some facts concerning the agricultural and dairy products of the province during the past few years.

"In 1978 Manitoba made her first export of wheat, a matter of 807 bushels," said Mr. Evans. "Today the province has 5,000,000 acres under cultivation, and in one year has produced 98,000,000 bushels of wheat."

"Eighty years ago people were trying to work out a programme of farm practice in the province which would enable them to make a living. Today, Manitoba has a population of 613,000 with 2,300 schools in which are 3,857 classrooms. There are today 27,000 miles of good roads in Manitoba, 3,400 of which are under the 'Good Roads Act'."

Tracing the rise of the dairy industry in the province, Mr. Evans pointed out that in 1912, Manitoba imported 35 carloads of butter valued at \$245,900 for home consumption. In 1913, 25 carloads were imported, and in 1914, 20 carloads. In 1915 the province not only supplied its own needs, but exported 50 carloads of butter valued at \$231,500. At present Manitoba is exporting butter in large quantities.

World's Fastest Locomotive

New York Central engine 999, the most famous locomotive in America, has been withdrawn from service after running thirty years.

Its fame came through the fact that one day, about ten years ago, when pulling the Empire State Express, this engine made the record speed of 112 miles an hour. This speed has not since been attained anywhere in the world by a locomotive.

By-Products From Coal

Coal is very common, but from it are made 210 by-products: Aspirin, for headaches and colds; phenol, for laxatives; creosol, for cold medicines; dye stuffs, a veritable rainbow of colors; inks, paints, roofing, felt, explosives, chemicals, are among the by-products.

Empire Settlement Scheme Appears Promising, Although Only In Experimental Stage

Apples Lead Fruits

Produced in Canada

Large Portion of B.C. Crop Absorbed By Prairie Provinces

Apples are the outstanding commercial fruit of Canada, according to a recent report of the Dominion department of agriculture.

While a large portion of the British Columbia crop is absorbed by the three prairie provinces, which took 2,235,000 boxes last year, shipments of apples from British Columbia to Europe are steadily increasing. In 1924, 368 carloads of British Columbia apples were exported, of which 287 went to Great Britain. Apple exports out of Vancouver last year totalled 105,587 boxes compared with 84,328 the previous year. Of these 61,024 went to Great Britain.

British Columbia is now third to Nova Scotia and Ontario in apple growing.

Testing New T. B. Vaccine

British Cattle Breeders Are Convinced Treatment Is Sound

Attention is drawn by an English paper to the claims which are made for the research work on tuberculosis which is being carried out by a Mr. Spallinger at Geneva. A number of British breeders have been over to Switzerland to see for themselves the results, and many are said to have returned convinced of the soundness of Mr. Spallinger's vaccine treatment.

Recently according to this report a party of medical men who are members of the House of Commons, visited Geneva and they, too, seem to have returned convinced. It is now proposed that the Spallinger treatment for human tuberculosis should be tested in Great Britain.

A man should not place too much confidence in his companion when he is beside himself.

So far as the Vancouver Province can judge, the empire settlement scheme is going to prove a success. The plan is to place three thousand selected British families on farms in Canada in three years. The Canadian Government is providing the farms, which are for sale, on easy terms, and will help the newcomers get established. The British Government is advancing money, not exceeding about £300 per family for livestock and machinery. The settlers are being placed in districts that are fairly well settled, and will not have the hardships and loneliness of pioneering to endure. There are neighbors, and arrangements are made for friendly assistance from the first.

"The plan is promising, but it is being conducted on a very small scale," the Province says. "There are two reasons for this. It is in the experimental stage yet, and the families who are given assistance are so carefully selected that no great number can measure up to the requirements. If it is to be expanded, as it should be, once its merits are proven, it will probably be necessary to take in people who have had no great acquaintance with rural life, and to extend the period of probation or adopt some means of training such as was suggested by Lord Burnham in his address to the Vancouver Canadian Club."

"Strangely as it may seem, the number of farms available is at present also limited, for the only land being utilized for empire settlement consists of property taken up under the soldier settlement scheme and abandoned. It is a country like this, with millions of unfilled acres within easy reach of railways, there should be no difficulty in getting farms for all who wish them, and if the scheme is to do its best for the settlers of the Dominion, some means will have to be found of bringing this land under cultivation. We are a very much scattered country, and might, with considerable advantage, devote some attention to becoming more compact."

"It is quite possible that families accustomed to farm life might be secured more easily on the continent of Europe than in Great Britain. But the settlement of these would raise problems which the placing of British immigrants would not involve. Besides, we should have to meet the whole expense ourselves, and would be doing nothing in bringing in foreign immigrants to help the Motherland settle her problem of surplus population. While by no means rejecting promising settlers from the continent, it would seem to be wisest for us, during some years to come, to concentrate more on securing the best type of immigrant we can get from the British Isles."

Large Milk Production

Holstein Owned By B.C. Government

Creates New Record

Stated to have created a record in milk and butter fat production in its class for United States and Canada, Colonel Mayne Perfection, a three-year-old member of the famous herd of Colony Farm Holsteins, during the last year, has produced 25,046 pounds of butter, according to word received at the farm at New Westminster, B.C., from the record of performance headquarters in Eastern Canada. Colony Farm is owned by the British Columbia Government, Colonel Wayne Perfection is the farm's own breeding.

Wins Over Prince

Fifth Prize Winner in Calf Club Bests E.P. Ranch Entry

Edwin Davidson's Hereford calf won first place, a check of \$5 in the Lehigh Valley Calf Club competition, judged by Prof. Sackville at the fair. A sensational feature of the morning's judging was the placing of the fifth prize winner in the calf club competition, a pure-bred Shorthorn bred by "Baroness" Sprinkles of Chin, ahead of the Prince of Wales' ranch entry, Shorthorn half-bred class.

King of the Fairies, the E.P. Ranch herd bull, was an easy first in his class.

In Japan food always is placed before a visitor when he arrives, no matter what the time of day.

Field Marshal Haig Completes Tour of the Dominion

(1) The Field Marshal smiles benignly upon his admirers from the cabin of his engine. (2) Dons the outfit of a cow puncher at the Calgary stampede. (3) Views the coastal scenery from the Roof Garden of the Hotel Vancouver. (4) He greets Great War Veterans at Chapsqua, Ont. (5) Poses for a camera portrait on board the Canadian Pacific Coast Steamer "Princess Charlotte" on his way to Victoria and Vancouver.

Field Marshal Earl Haig, having travelled through Canada to the coast on a special Canadian Pacific train has now returned to England. The famous soldier, as grand president of the British Empire Service League, came to Canada in June to attend the second biennial conference of the league at Ottawa and brought with him an imposing list of ex-service men's representatives from all parts of the British Empire.

As he journeyed across the country Earl Haig was greeted at all points by townspeople and veterans, and whenever he could do so, remained in the bigger towns along the route long enough to shake hands with the veterans and address a few words to them. At Ennisville, when he stopped for about half an hour, he was tendered a civic reception and an address of welcome by the mayor, an ex-member of parliament and an ex-Canadian engineer. At Banff, Canada's most popular

summer and winter resort, the Field Marshal met Lord Buns, who was at the time returning, also over Canadian Pacific lines, from a ten-day visit to Victoria and Vancouver. "At Calgary, Earl Haig addressed 1,500 ex-service men in the G.W.V.A. Memorial Hall, and attended the Calgary Stampede. At the coast he was entertained by official dinners and reception by the provincial government of British Columbia at Victoria, and by the civic head in Vancouver."

BARRE, SON OF KAZAN

James Oliver Curwood

A LOVE EPIC OF THE FAR NORTH

Copyright, 1917, by Doubleday, Page & Co.

"BARRE, SON OF KAZAN," a Vitaphon Picture, With Wolf, the War Dog. Is an Adaptation of This Story

SYNOPSIS

Barre, son of Kazan, a dog, and Gray Wolf, was nearly three weeks old when first he wandered away from home. His first adventure was a fight with an owl, in which both were badly torn and mangled. Growing hungry, he succeeded finally in catching a crayfish in a creek. Soon he came upon Wakayoo, a huge black bear, which puzzled him but which disappeared at his approach. Wandering through the forest Barre grew bolder. The dog in him wanted to die, but the wolf aspect burned stronger.

CHAPTER IV.—Continued.

In the forests as well as in the great cities fate plays its changing and whimsical hand. If Barre had dragged himself in the timber half an hour later he would have died. He was too far gone now to hunt for crayfish or kill the weakest bird. But he came just as Sekoosew, the ermine—the most bloodthirsty little pirate of all the wild—was making a kill.

As Barre lay under his tree, Sekoosew was creeping on his prey. His game was a big fat spruce-hen standing under a thicket of black currant bushes. The ears of no living thing could have heard Sekoosew's movement. He was like a shadow—gray dot here, a flash there, now hidden behind a stick no larger than a man's wrist, appearing for a moment, the next instant gone as completely as if he had not existed. Thus he approached from fifty feet to within three feet of the spruce-hen. That was his favorite striking distance. Unerringly he launched himself at the downy prairie's throat, and his needle-like teeth sank through feathers into flesh.

Sekoosew was prepared for what happened then. It always happened when he attacked Napanao, the wood-partridge. Her wings were powerful, and her first instinct when struck was always that of flight. She rose straight up now with a great thunder of wings. Sekoosew lunged, his teeth buried deep in her throat, and his tiny, sharp claws clung to her like hands. Through the air he whizzed with her, biting deeper and deeper, until a hundred yards from where that terrible death thing had fastened to her throat, Napanao crashed again to earth.

Where she fell was not ten feet from Barre. For a few moments he looked at the struggling mass of feathers in a daze, not quite comprehending that at last food was almost within his reach. Napanao was dying, but she still struggled convulsively with her wings. Barre rose stealthily, and after a moment in which he gathered all his remaining strength, he made a rush for her. His teeth

sank into her breast—and not until then did he see Sekoosew. The ermine had raised his head from the death grip at the partridge's throat, and his savage little red eyes glared a single instant into Barre's. Here was something too big to kill, and with an angry squeak the ermine was gone. Napanao's wings relaxed, and the throat went out of her body. She was dead. Barre hung on until he was sure. Then he began his feast.

Barre ate a third of the partridge, and the remaining two-thirds he cached very carefully at the foot of the big spruce. Then he hurried down to the creek for a drink. "The world looked very different to him now. After all, one's capacity for happiness depends largely on how deeply one has suffered. One's hard luck and misfortune for the measuring stick for future good luck and fortune. So it was with Barre. Forty-eight hours ago a full stomach would not have made him a tenth part as happy as he was now. Then his greatest longing was for his mother. Since then a still greater yearning had come into his life—for food. In a way it was fortunate for him that he had almost died of exhaustion and starvation, for his experience had helped to make a man of him—or a wolf-dog, just as you are of a mind to put it. He would miss his mother for a long time, but he would never miss her again as he had missed her yesterday, and the day before.

"And Nepee, aiming carefully at Barre, pressed steadily with her brown forefinger upon the trigger."

For another day and night Barre remained in the vicinity of his cache. When the last hour was passed, he moved on. He now entered a country where subsistence was no longer a perilous problem for him. It was a lynx country, and where there are lynx, there are also a great many rabbits. When the rabbits thin out, the lynx emigrate to better hunting grounds. As a snowshoe rabbit breeds all the summer through, Barre found himself in a land of plenty.

And this was straight into the trapping country of Pierrôt, the half-breed.

Pierrôt, until two years ago, had believed himself to be one of the most fortunate men in the big wilderness. That was before La Mort Rouge—the Red Death—came. He was half French, and he had married a Cree chief's daughter, and in their log cabin on the Gray Loon they had lived for many years in great prosperity and happiness. Pierrôt was proud of three things in this wild world of his: he was proud of Wyola, his royal-blooded wife; he was proud of his daughter, and he was proud of his reputation as a hunter. Until the Red Death came, life was quite complete for him. It was then—two years ago—that the smallpox killed his princess-wife. He still lived in the little cabin on the Gray Loon, but he was a different Pierrôt. The heart was sick in him. It would have died, had it not been for Nepee, his daughter. His wife had named her Nepee, which means the Willow. Nepee had grown up like the willow, slender as a reed. With all her mother's wild beauty, and with a little of the French thrown in. She was

Keep Your Shoes Nourished

2N1

WHITE Shoe Dressing CAKE OR LIQUID

sixteen, with great dark, wonderful eyes, and hair so beautiful that an agent from Montreal passing that way had once tried to buy it. It fell in two shining braids, each as big as a man's wrist, almost to her knees. "Non, M'sieu! Pierrôt had said, a cold glitter in his eyes as he saw what was in the agent's face. "It is not for sale."

Two days after Barre had entered his trapping ground, Pierrôt came in from the forests with a troubled look in his face.

"Something is killing off the young, boys," he explained to Nepee, speaking to her in French. "It is a lynx or a wolf. Tomorrow—" He shrugged his thin shoulders, and smiled at her.

"We will go on the hunt," laughed Nepee happily, in her soft Cree. When Pierrôt smiled at her like that, and began with "Tomorrow," it always meant that she might go with him on the adventure he was contemplating.

Still another day later, at the end of the afternoon, Barre crossed the Gray Loon on a bridge of driftwood that had wedged between two trees. This was to the north. Just beyond the driftwood bridge there was a small open, and to the edge of this Barre paused to enjoy the last of the setting sun. As he stood motionless and listening, his tail drooping low, his ears alert, his sharp-pointed nose sniffing the new country to the north, there came a pair of eyes in the forest that would not have taken him for a young wolf.

From behind a clump of young balsams, a hundred yards away, Pierrôt and Nepee had watched him come over the driftwood bridge. Now was the time, and Pierrôt leveled his rifle. It was not until then that Nepee touched his arm softly. Her breath came a little excitedly as she whispered:

"Nootaw, let me shoot. I can kill him."

With a low chuckle Pierrôt gave the gun to her. He counted the whip as already dead. For Nepee, at that distance, could send a bullet into an inch square nine times out of ten.

CHAPTER V.

As the Willow pulled the trigger of her rifle, Barre sprang into the air. He felt the force of the bullet before he heard the report of the gun. It lifted him off his feet, and then sent him rolling over and over as if he had been struck a hideous blow with a club. For a flash he did not feel pain. Then it ran through him like a knife of fire, and with that pain the dog in him rose above the wolf, and he let out a wild cry of puppyish yapping as he rolled and twisted on the ground.

Pierrôt and Nepee had stepped from behind the balsams, the Willow's beautiful eyes shining with pride at the accuracy of her shot. Instantly she caught her breath. Her brown fingers clutched at the barrel of her rifle. The chuckle of satisfaction died in Pierrôt's lips as Barre's cries of pain filled the forest.

(To be continued)

"Why do they always call ships 'she'?" I suppose it's because they glide along so gracefully!"

"Oh, no; it's because their rigging costs so much, and they go in for sails."

For Warts

Apply Minard's freely and often and watch them disappear.

MINARD'S "KING OF PAIN" LINIMENT

Not Just What He Meant

Colonel Peck Says He Is Always Making Breaks

This might be called an anecdote of Field-Marshal Earl Haig or of Colonel Cyrus Peck, or both. The well-known and bluff Canadian Victoria Cross hero acted as chairman for the distinguished soldier, leader of the British forces in the Great War, when the field-marshal addressed a crowded theatre of Victoria war veterans on his plan for amalgamating ex-service men throughout the British empire. At the end of his speech Colonel Peck remarked:

"And there's 'one other thing. I want you all to be on hand to say adieu to Earl Haig when he leaves Victoria tomorrow afternoon. I know that will be a pleasant duty for all of you.' Earl Haig was the first to seize the joke and lead the laughter.

"I am always making breaks like that," commented the colonel. "You know, someone telephoned me to ask if I would be pallbearer at the funeral of a friend the other day, and I replied that I would be delighted."

Strange Instinct Of Cattle

Why Cows Are Panic Stricken When Attacked By Dogs

Perhaps you have noticed how frightened cows become if a little dog begins to snap at their heels. Now just why do these big creatures become panic stricken and scatter in every direction when any one of them could easily put the dog to flight? Because at one time all horned cattle were wild and often attacked by ferocious wolves. Although it has been so many hundreds of years, cows still have an instinctive dread of any creature that looks like their ancient enemy.

Japs Like Singing Insects

Crickets and Grasshoppers Sold On Streets of Tokio

Singing insects are now on sale by street vendors along the Giza, the "Main Street" of Tokio. The principal warblers of the insect variety are crickets and long-horned grasshoppers. To the Japanese the "song" of the cricket and the grasshopper lends a peculiar charm to the summer evening.

The diminutive insects are sold in quaint bamboo cases, decorated with silk ribbons. Prices range from fifty sen to as much as twenty-five yen each.

The Many-Purposes Oil.—Both in the house, and stable there are scores of uses for Dr. Thomas' Electric Oil. Use it for colds, bruises, burns, scalds, the pains of rheumatism and sciatica, sore throat and chest. Horses are helped very largely by salar ailments and ailments as afflict mankind, and are equally amenable to the healing influence of this fine old remedy which has made thousands of firm friends during the past fifty years.

Ethics Code For Motorists

Washington Association Endeavors to Establish Honor System on Roads

A nation-wide canvass of all interests concerned with motorist safety for ideas as to the development of a code of motoring ethics, will be conducted by the American Automobile Association, Washington, preparatory to the appointment of a national committee to draw up such a code.

The purpose of such a code was described by the association as the "establishment of an honor system on the roads," whereby the motorist himself can test the "extent to which he measures up to the responsibility devolving on all users of the common highway."

A Remedy for Eczema.—To have the eczema he to endure torture. The ear is a delicate organ and few care to deal with it, considering it work for a doctor. Dr. Thomas' Electric Oil offers a simple remedy. A few drops upon a piece of lint or medicated cotton and placed in the ear will do much to relieve pain.

Very Ancient Cloak Archæologists are of the opinion that a woollen cloak, discovered by peat cutters in Gerum Fen, near Skara, Sweden, is one of the oldest ever found in Europe. It was found a few feet under the surface of the peat, but the preserving qualities of the fen water have kept it intact for some 3,000 years. The British Museum possesses fragments of cloth of even earlier date.

The Chinese as a race are said to be the 'most honest people' in the world.

How to make

DUTCH PICKLE

1 quart green cucumbers, 1 quart onions, 1 quart carrots, 3 red peppers, 1 quart green tomatoes, 1 large cauliflower, 34 cup salt.

Chop all fine and pour on enough hot water to cover. Let stand half an hour and drain, then make a dressing of the following:—

1 tablespoonful Keen's D.S.F. Mustard, 3 cups sugar, 1 teaspoonful turmeric, 1 cup flour.

Mix with a little vinegar until smooth, add mixture to 2 quarts vinegar stirring constantly over fire, until thickened, then pour over vegetables.

37ER

Keen's Mustard

aids digestion

Surgeon's Clever Invention

A young French surgeon of Paris has invented an apparatus, called the episcope, that will enable medical students in an adjoining room to observe every detail of an operation without disturbing either the operating surgeon or the patient. The apparatus, which consists mostly of lights and mirrors, produces an enlarged picture of the operation, and a loud speaker carries the comments of the surgeon.

SAVE THE CHILDREN

Mothers who keep a box of Baby's Own Tablets in the house may feel that the lives of their little ones are reasonably safe during the hot weather. Stomach troubles, cholera infantum and diarrhoea carry off thousands of little ones every summer, in most of cases because the mother does not have a safe medicine at hand to give promptly. Baby's Own Tablets relieve these troubles, or if given occasionally to the well child they will prevent their coming on. The Tablets are guaranteed by a government analyst to be absolutely harmless even to the newborn babe. They are especially good in summer because they regulate the bowels and keep the stomach sweet and pure. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.

Use Geysers For Heating

In Reykjavik, Iceland, the geysers a mile away from the city have long been used for laundry purposes by the Icelanders. But now the enterprising town-people are going farther. They are planning to pipe the hot water into their houses, and heat the whole town in the most approved style at nature's expense.

YOUR china will be more brilliant — more thoroughly cleaned — if Sally Ann is used. It never scratches; leaves hands soft and white.

FULL OF ACHES AND PAINS

Toronto Mother Found Relief by Taking Lydia E. Pinkham's Vegetable Compound

Toronto, Ontario.—"I have found Lydia E. Pinkham's Vegetable Compound a splendid medicine to take before and after confinement. A small baby was put in my door one day advertising Lydia E. Pinkham's medicines, and as I did not feel at all well at the time I went and got a bottle of Vegetable Compound right away. I soon began to notice a difference in my general health. I was full of aches and pains at the time and thought I had every complaint going, but I can truthfully say you medicine certainly did me good. I can and will speak highly of it, and I know it will do other women good who are sick and ailing if they will only give it a fair trial. Lydia E. Pinkham's Liver Pills are splendid for general health. You are welcome to use my letter if you think it will help any one."—Mrs. HANNA WATSON, 641 Quebec Street, Toronto, Ontario.

The expectant mother is wise if she considers carefully this statement of Mrs. Watson. It is but one of a great many, all telling the same story—beneficial results.

Lydia E. Pinkham's Vegetable Compound is especially adapted for use during this period. The experience of other women who have found this medicine a blessing is proof of its great merit. Why not try it now yourself?

W. N. U. 1290

HAVE REACHED AGREEMENT ON SECURITY PACT

London.—Another step toward the security pact which Western Europe likely will pin its hope upon for peace in the future was taken when the French and British foreign ministers reached a common agreement on the reply France is to make to the last German note concerning treaties of mutual guarantee and arbitration.

Having settled these points, Foreign Minister Briand and Austen Chamberlain, the British foreign secretary, took advantage of their conference in London to exchange views on the security pact. Exactly what their views are on this subject only they know, but the foreign office issued a statement saying their meeting had "tensely improved prospects for conversations taking place in the near future which will lead to a final result."

These conversations, of course, are to be between the statesmen of the allied nations and those of Germany, and a beginning likely will be made next time the German ambassador to the British Isles calls on Mr. Chamberlain in Downing Street.

Australia Benefits From Preference

British Government Pursuing Policy Of Assistance to Producers

London.—Australia is reaping the largest benefits from imperial preference granted by the Baldwin Government as was generally predicted when they were introduced.

The London Times cable from Adelaide quotes the Australian minister for markets as stating that according to the latest estimate, Australia is benefitting under the imperial preference scheme to the extent of £350,000 in the current year on salt, sugar, vines and currants. Efforts are also being made to arrange a preference with New Zealand while the Canadian preference will come into operation shortly.

The government is vigorously pursuing a policy of assistance to producers in the effective marketing overseas of their surplus products and over £200,000 has already been advanced to help them with their present crops. The general outlook for producers is more hopeful for many years to come.

Troops Removed From Nova Scotia

Sent to Collier Districts After Riot Last June

Halifax, N.S.—The thousand or more troops which have been stationed in Cape Breton, from various parts of Canada since the middle of June, have been removed. The troops were sent to the collier districts after the New Waterford riot of June 11, when one man was killed and numbers injured, and which was followed by looting and the burning of British Empire Steel Corporation stores.

The cost of transporting the troops and maintaining them from June 12 to August 8, was \$325,000, according to figures furnished by the department of national defence, given to the attorney general in his request, by Major-General Thacker, officer in command of district number six. The figures are an estimate based on an average daily cost of \$4.24, plus \$30,000 for transportation to and from Cape Breton.

Cut Alberta Coal Order
Toronto.—It is expected the experimental shipment of 25,000 tons of coal from Alberta mines to Ontario will be reduced by 5,000 tons. The time limit for the special rate allowed by the railways on this coal expired August 15. Hon. Charles McLean, minister of mines, stated that half the shipment had been received and loadings now in the west or enroute would increase the total to 20,000 tons.

Germany Approves Treaty
Berlin.—The Reichstag has approved the new treaty of commerce and amity between Germany and the United States. The Reichstag also passed the government's tariff bill without amendment.

W. N. U. 1890

Cattle Awards At Vancouver

Saskatchewan Man Well Up With Exhibit of Ayrshire.

Vancouver.—J. D. McGregor, of Brandon, Man., had things pretty much his own way in the various classes of Aberdeen Angus cattle judged at the Vancouver fair, winning the senior and grand championship in the bull class with Permit 5th. Queen Quail carried off the senior female and grand championship, and Time Lady of Glencairn was awarded the junior reserve female championship. Besides these honors, the McGregor entries captured seven first and seven second and third place ribbons.

W. H. Morton and Sons, of Fairlight, Sask., while not capturing a first, had 21 entries which finished second or third in the Ayrshire classes.

Amos and Black, of Moffat, Ont., secured the senior female championship for Shorthorns with Maxwell Rosemary, and five firsts, five seconds and five third place ribbons in this class.

Japanese Captain Flouts B.C. Officers

Informed Vessel Was Under Seizure But Put to Sea

Victoria.—Ignoring the demands of Marshal W. H. Goggin of the British Columbia division of the admiralty court that she was under seizure in connection with sinking of the tug Hunter in Vancouver harbor, the Japanese freighter Kalky Maru put to sea.

Acting on instructions from Vancouver, the marshal awaited the arrival of the vessel of Victoria where she dropped her Vancouver pilot. The Japanese captain, after some discussion, promised to bring his vessel into the Royal Roads, but refused to permit the marshal to go aboard. When the pilot was dropped, the Japanese freighter headed out to sea, leaving the marshal and his aide frozen off shore.

No Foundation For Report

Government Not Bringing 10,000 Ukrainian Settlers Into Canada

Vancouver.—Emphatic denial of the report that the Dominion Government contemplates bringing 10,000 Ukrainian settlers into Canada, was contained in a letter from W. J. Egan, deputy minister of immigration at Ottawa, and read at a meeting of the Vancouver police commissioners.

The letter was in reply to a resolution passed by police commissioners of Trail, B.C., which the Vancouver police commissioners was asked to endorse, protesting against wholesale importation of Central Europeans.

The report had no foundation in fact, and may have arisen, said the letter, from the fact that the immigration department is planning to place a number of Ukrainians on the land in different parts of Canada.

Investigating Rust Resisting Wheat

Find of Dakota Men Only Resists Certain Strains

Regina.—Commenting upon the report that R. S. McFadden, of Aberdeen, S.D., has produced a wheat that is rust resistant, Hon. C. M. Hamilton, minister of agriculture, says: "Saskatchewan University, under the direction of Dr. Thompson, has been experimenting in crossing hard red spring wheat with Emmer or Speltz and the early crossings were found to be resistant against certain strains of rust but did not stand up against certain other strains of rust. The investigation is going on and no doubt the discovery of Mr. McFadden will be carefully inquired into. Fortunately there is reciprocity in these matters."

May Visit Canada

Toronto.—The Telegram says that Premier Baldwin of Great Britain will pay a visit to Canada this fall, according to a prominent local citizen who has been in communication with Mr. Baldwin.

Cables have said the prime minister and his wife would probably be in the Dominion next year.

Schools, theatres and churches in Frankfurt, Germany, were closed recently by a widespread influenza epidemic.

COMMITTEE HAS REPORTED ON CATTLE POOL

Regina.—A federation of livestock associations rather than a cattle pool along the lines of a grain pool is the recommendation for Saskatchewan by the special committee of enquiry appointed by the agricultural interests of the province to probe this subject some months ago.

That a cattle pool for Saskatchewan in the sense that grain is pooled is not possible, and that any attempt to organize on that plan could only lead to disappointment is the unanimous opinion of the committee, as set forth in its report made public by George F. Edwards, president of the Saskatchewan Grain Growers' Association and chairman of the investigation board of which the enquiry committee was a sub-committee.

The committee of enquiry came into existence by reason of a resolution passed at the last convention of the Saskatchewan Grain Growers' Association calling upon the central executive to enquire into the whole question of a cattle pool. Under this authority, the executive of the association, last March, called a meeting of agricultural interests, which meeting formed an investigation board and appointed a sub-committee to investigate the feasibility of a cattle pool, composed of the following well known agriculturalists and cattle men: Hon. George Langley, vice-president of the Saskatchewan Grain Growers' Association; Edward Evans, general manager of the South Saskatchewan Stockyards, Ltd.; Moses Jaw; R. A. Wright, president of the Saskatchewan livestock board; and W. Waldron, acting provincial markets commissioner, department of agriculture, as secretary.

The committee of enquiry came into existence by reason of a resolution passed at the last convention of the Saskatchewan Grain Growers' Association calling upon the central executive to enquire into the whole question of a cattle pool. Under this authority, the executive of the association, last March, called a meeting of agricultural interests, which meeting formed an investigation board and appointed a sub-committee to investigate the feasibility of a cattle pool, composed of the following well known agriculturalists and cattle men: Hon. Canadian Official Dies In Hong Kong

Commissioner of Immigration Has Been in China Since 1923

Ottawa.—Joseph E. Featherston, Canadian commissioner of Chinese immigration at Hong Kong and former civil servant of this city, died in Hong Kong, aged 46, according to word received by the department of immigration. He was born at Brampton, Ont. Mr. Featherston left for China in 1923. He entered the civil service in 1905 and was at various times secretary to Hon. Frank Oliver, Hon. J. A. Calder and Hon. Charles Stewart.

Canada Pays Large Loan

Is Only One of Four Coming Due This Year

Ottawa.—Canada has paid off a loan of £5,000,000 due in London on Aug. 12.

Three further loans are due by Canada within the next few months. On the fifteenth of next month a loan for \$50,000,000 will fall due in New York; while an additional loan is payable here and in New York for \$8,000,000 on November 15 next. The sum of \$42,000,000 of the first war loan floated by Sir Thomas White is due in December.

Ex-President Opens Course

Chief Justice W. H. Taft, ex-President of the United States, replying to the speech of welcome at the opening of the new 6,000-acre championship golf course at the Manor Richelieu, Murray Bay, Quebec, just prior to teeing off with a 170-yard drive. Mr. Taft complimented W. H. Corbett, President of the Canada Steamship Lines, Limited, on his company's enterprise in creating one of the finest golf courses in Eastern Canada, set among some of the finest scenery in that part of the Dominion.

No Advance News About Wheat Pool

Ontario Minister of Agriculture Just Guessing Said MacPhail

Windsor.—A recent interview given out in the name of Hon. Manning Doherty was attacked by A. J. MacPhail, president of the central selling agency of the prairie wheat pools, who was here attending the regular monthly meeting of the organization.

He turned Mr. Doherty's statements with regard to the amount the wheat pool would pay the western farmer in the 1924 crop as "pure guess work."

"Up to date," he said, "no one has been informed by us in advance of any of our proposed payments. Personally, I do not think that it will be in a position to make a statement on the matter before I return to Regina."

Manning Doherty, former minister of agriculture in Ontario, in an interview at Toronto, said members of last year's wheat pool in Western Canada would be able to defer a good part of their threshing costs this year by means of a further 10-cent payment on the 1924 crop, to be made probably in September. Mr. Doherty had just returned from a tour of the west.

Mr. Doherty, in his interview, also predicted a wheat crop for the west of a year of between 350,000,000 and 400,000,000 bushels, which is some 25,000,000 bushels in excess of the latest estimate of the Dominion bureau of statistics.

Passes New Tariff Act

German Duties Will Restrict United States Exports to Country

Berlin.—The new tariff act, which was passed without amendment by the Reichstag provides for conspicuously high rates on foodstuffs and various categories of industrial products, including automobiles.

The new duties are intended to curtail United States exports to Germany. It is indicated in official quarters, however, that the new rate represents maximum which are to constitute the basis for subsequent negotiations, and that in the case of the food duties, for instance, the ministry of agriculture is empowered to alter them in order to secure reciprocal treatment with nations with which Germany has not yet concluded treaties.

Protest Against Rates

Associated Fruit Growers of B.C. Allege Unjust Discrimination

Ottawa.—Unjust discrimination in respect to the rates on shipments of apples from Vernon and Okanagan, B.C., to the chief ports on the prairies, as against those on shipments from London and Chatham, Ont., both apple shipping centres, is complained of in a submission filed by the Associated Growers of British Columbia, Ltd., Vernon, B.C., with the board of railway commissioners, on the question of revision and equalization of the freight rates in Canada.

The British Columbia growers further state they are handicapped as regards the freight rates charged on potatoes shipped by them.

Frontier Closed

Belgrade.—The Jugo-Slav Government has ordered the Greek frontier closed because of reports of an outbreak of plague in Piræus.

STRIKE IN PEKIN MAY BE EXTENDED TO BRITISH BANKS

Peking.—Chinese Christians are trying to concentrate in one institution all the British mission schools in Peking under native teachers and lay clerics. The Anglican and London missions probably will not be able to resume in September. Similar efforts in the provinces are affecting other foreign missions. The British legation strike is serious as the water supply is cut off. Fewer than a third of the staff of 200 remain at their posts.

The British charge d'affaires has visited the foreign office. He consulted the police but the police were not able to stop the picketing. The students are preparing to extend the strike to British banks, business, etc.

The Chinese are reported to be contemplating direct appeal to the signatory powers to request a tariff conference to authorize the utilization of additional revenue for the replacement of certain taxes and for construction work owing to a report that the powers insist on the redemption of unsecured foreign loans. Opposition to the conference is increasing unless treaty revision is included.

Large Sum Needed To Complete B.C. Road

Would Take \$1,750,000 to Extend Railway to Prince George

Victoria.—If the British Columbia legislature decides to complete the Pacific Great Eastern Railway to Prince George it must be prepared to spend about \$1,750,000 on the project, according to estimates completed a short time ago. Premier Oliver announced on his return here from an inspection of the government-owned railway.

"The railway itself is in pretty good condition, although it needs a good deal of ballasting work, and the replacements will be heavy," the premier said.

He refused to discuss the government's attitude on the proposal that the legislature authorize the completion of the railway into Prince George at the next session. It is understood, however, that the cabinet will consider it carefully before the house meets.

Aviators Have Narrow Escape

Flying Over English Bay When Plane Took Fire

Vancouver.—Extinguishing a fire which burst out while they were flying at a height of several thousand feet, Squadron Leader J. H. Tudhope, Dr. Frederick L. Hoffman, of Newark, N.J., and Sergt. Perry had a narrow escape from serious injury and possible death.

The flight had been specially arranged for Dr. Hoffman, who is touring the United States and Canada investigating aviation insurance conditions.

Fire started when the connecting rod of the engine broke. Sergt. Perry immediately set in motion the fire fighting apparatus, and Major Tudhope toppled to the water below. Little damage was done to the plane.

Message From MacMillan

Quebec.—A local wireless station received a message Aug. 11 from E. F. McDonald, of the MacMillan Polar expedition, who was at Etah, Greenland, about 11 degrees from the North Pole. The message stated that the expedition was in daily touch with all parts of the world and that it was hoped to be able to broadcast more clearly and with a greater volume of sound in the future from their northerly position.

First Wheat Of Season

Winnipeg.—A carload of number one northern wheat from a farm near Rosefeldt, Man., representing what is believed to be the first shipment of the 1924 crop, reached Winnipeg, Aug. 11. The wheat ran 62 pounds to the bushel.

Marital Law In Rumanian Area
Bucharest, Rumania.—The cabinet has declared martial law in the region of Focseane, Eastern Rumania, in order to put an end to anti-semitic agitation. Officials declare the trouble was fomented by the Third International.

Prize Winning Canadian Peonies Exhibited In London

This unique picture shows the much discussed Canadian Peonies grown in Montreal by Mr. Ormiston Roy and shipped to England in cold storage in a Canadian Pacific vessel, on exhibition in the window of the Canadian Pacific offices in London, England. The Royal Horticultural Society has presented the Banksia Silver Medal to Mr. Roy and several London papers have remarked editorially upon the extraordinarily perfect condition of the blooms after their long sea voyage. An interesting feature of the picture is that in the window may be seen the reflection of the new Canadian Building which stands almost directly opposite the Canadian Pacific Offices and was recently opened by the King and Queen.

Deep gratification is felt in Canadian Pacific Railway circles over the receipt of the following telegram sent to President E. W. Beatty by His Royal Highness the Prince of Wales:—Unvuma, South Africa, July 2nd.—Have just heard of Mr. Howard's death. Please convey to relatives my deepest sympathy. (Signed) Edward P. The late Mr. W. B. Howard was twice in charge of the Prince of Wales' train when His Royal Highness travelled over Canadian Pacific lines.

For the second time in the history of the newspaper industry, Canadian output has run ahead of that of the United States. During the month of May Canada produced 130,018 tons of newspaper, as compared with 129,026 tons in the United States. The cumulative production of Canadian mills for the first five months of the current year totals 622,235, which favorably compares with a production of 622,084 in the United States during the same period.

EARL HAIG AS ENGINE DRIVER

WHEN Field Marshal Earl Haig crossed the Canadian Rockies on his special Canadian National Railways train, he expressed a wish to view the scenery from the cab of the engine rather than from the observation car which was attached to the train. He therefore took the throttle

SEALED TENDERS, addressed to the undersigned and marked "Tender for Section 6, Welland Ship Canal," will be received at this office until 12 o'clock noon (Standard Time), Tuesday, September 22d, 1923. Plans, specifications and form of contract to be entered into can be seen on and after this date at the office of the Chief Engineer of the Department of Railways and Canals, Ottawa, and at the office of the Engineer in Charge, Welland Ship Canal, St. Catharines, Ont. Copies of plans and specifications may be obtained from the Department on the payment of the sum of one hundred dollars. To bona fide tenders this amount will be refunded

upon the return of the above in good condition. An accepted bank cheque on a chartered bank of Canada for the sum of \$50,000.00 made payable to the order of the Minister of Railways and Canals, or Bonds of the Dominion of Canada to the same amount, or Bonds of the Dominion of Canada with an accepted cheque if required, to make up the difference, must accompany each tender, which sum will be forfeited if the party tendering declines entering into contract for the work of the rates stated in the offer submitted. The cheque or bonds thus successful tenderer will be held as security or part security for the due fulfillment of the contract to be entered into. The lowest, or any tender not necessarily accepted. By order, J. W. RUGSLEY, Secretary, Department of Railways and Canals, Ottawa, August 8th, 1923.

Here and There

That a new market has been found for Canadian lobsters, is shown by the report that twenty-six hundred cases of lobsters, valued at about \$75,000, were shipped to Sweden from Halifax, N.S., during the first week in July.

The gold mines of Northern Ontario are now realizing aggregate profits of a million dollars a month, according to estimates compiled at Timmins, Ont. There was a gross income of \$2,650,000 during the month of June.

Six hundred and twenty-four families from Great Britain and other European countries settled in the West on 187,000 acres of land in the fiscal year ending May 31st, according to the records of the Canada Colonization Association.

Quebec is this year enjoying the greatest influx of tourists. It has known for a considerable time. Hundreds of motorists, the majority from the States, are camped in and around the city, and the Chateau Frontenac reports capacity bookings.

During his tour of Western Canada Field Marshal Earl Haig passed through the town on the Canadian Pacific Railway which was named for him several years ago, for the first time. The Field Marshal, on learning his connection with the town, looked as pleased as though he had just won another famous victory.

According to the report of the Department of Agriculture, livestock marketings in Canada during the past year were the best experienced for many years. There were 975,020 cattle, 355,179 calves, 5,094,591 hogs and 485,606 sheep marketed in 1924, as compared with 882,921, 315,522, 2,363,402 and 512,390 respectively in the previous year.

According to J. M. Gibson, secretary of the Trail Riders of the Canadian Rockies, who recently left Montreal for the West, the annual cross-country ride and pose-down undertaken by that organization, is becoming so popular that lovers of the outdoors from England and Australia are attending this year, in addition to the members from the United States and Canada.

The "Bentley Boys," four British youngsters, brought out here by E. W. Beatty, K.C., President of the Canadian Pacific Railway, to study Canadian farm methods, arrived in Canada on the "Montcalm" this month. They are expert farmers selected by the Minister of Agriculture from the members of the Young Farmers' Club of Great Britain as will remain in Canada for two months as the guests of Mr. Beatty.

That elk, in the Panther River country, not far from Banff, are rapidly increasing in number and may possibly become a menace, is the opinion of Belmont Brown, an artist of New York who recently returned from a painting tour through the Rocky Mountains. Mr. Brown is regarded as an authority on wild animals and states that there will be, ten years from now, 10,000 elk in the district, unless steps are taken to decrease their numbers.

French-Canadian agricultural experts, theologians, students and others, touring the country under the auspices of the University of Montreal, express unanimous amazement at the agricultural development of British Columbia, the scenery of Alberta, the prairies of Manitoba, the beauties of Northern Ontario and the vastness of the country in general. A similar excursion left Toronto recently under the auspices of the Teachers' Federation of Canada also over Canadian Pacific lines, and will return the middle of August.

Stockyards.

Mr. Jack Herron, well-
known in curling circles, was
visiting this week with Mr.
Carl Pfeifer.

A movie picture "Flaming
Barriers" was presented in
Ducholke's Hall Tuesday
night, but the crowd was
small, owing to the short
notice given of its coming.

Mr. M. F. Voth has secured
the contract to finish the
church edifice at Rosenthal.

Altho the big storm Friday
night kept down the attend-
ance somewhat at the Holborn
Hall dance, it did not have
any noticeable effect on the
enjoyment of those who did
attend. At the conclusion of
the demonstration Mr. Ander-
son's orchestra gave, the ma-
jority present came to the
conclusion Music's first name
was Helge. In view of the
fact those not in attendance
missed a treat, an effort is
being made to bring these
popular music-makers to Stony
for a night.

The Mission Festivals at
Blueberry Church and Golden
Spike Church, which were
cancelled on Sunday last on
account of the rain, will prob-
ably be held, on a week from
Sunday, August 30.

Sporting Notes.

Cobblers Row juveniles had
a big time on Sunday last, on
the miniature lake there, the
aquatic sports easily outliving
anything held here so far.
The water polo match was
won by the Bretzels, a team
from the Bench, by 4 to 2;
the cow swimming race was
won by Gusie, on Snowball;
quite an interest was taken in

the high dive event, with four
entries, the first prize going
to a local bass-aller who don't
wish his name published; the
boat race, the rowers having
one hand tied behind their
backs, was cleared a tie.

Regret will be felt when
the town councilors drain this
place, as the club will have to
move to the Lake on Main
street near Mike Ducholke's.
P. W.

Herman in First-class Comp'y

In the ball game in Edmon-
ton on Friday, between Cal-
gary Whitecaps and Edmonton
Radicals, the latter won an up-
hill fight. Our own Herman
Loeblich did the pitching for
the winners; and of his work,
the Edmonton Journal has
this to say:—Herman Loeb-
lich, who did the heaving for
the Radicals, pitched a nice
article of ball. He was touch-
ed for eight hits, but kept
them fairly well scattered ex-
cept in the second, when three
were bunched. He fanned
eight of his opponents. His
support might have been bet-
ter, three errors by Wilson at
short making his assignment
harder than it otherwise
would have been.

Stony Plain Consolidated School District No. 52.

The school will be reopened on
Tuesday, 1st September, at 9 a.m.
Owing to lack of accommodation
only a limited number of pupils will
be received in the High School. Pre-
ference will be given (1) to pupils
whose parents are resident in this
School District, and (2) to pupils from
outside districts who have already
attended the school.

All intending pupils must enrol
with the undersigned on or before
FRIDAY, AUGUST 26TH. Pupils
from outside Districts can only be
admitted on receipt of a suitable un-
derwriting for payment of fees.
Forms of application for outside pupils
may be obtained from the under-
signed. JAS. MALLOCH,
Secretary.

The Stony Plain Sun

Here and There

According to the official records
one hundred and thirty whales have
been caught by the Victoria, B.C.
whaling fleet, so far this season.
The sperm whale is the most plenti-
ful this year.

It has been estimated that over
one hundred and fifty thousand peo-
ple attended the Calgary Stampede
this year. A historical pageant more
than five miles long was the open-
ing feature of the jubilee.

With an estimated attendance of
fifty thousand each, twenty conven-
tions have been booked to take place
in Montreal for August, September
and October, according to figures
from the Tourist and Convention
Bureau of that city.

It is expected that when Hon.
Honore Mercier, Minister of Lands
and Forests, returns to Canada, a
thorough organization of the avia-
tion branch of the Quebec Lands
and Forests Department will take
place. It is reported that the Prov-
ince is to purchase several more
hydroplanes, to be used for forestry
research work, as well as for com-
bating forest fires and other work.

Church dignitaries, statesmen and
thousands of laymen congregated in
ancient Quebec to be present at the
wonderfully impressive ceremonies
attendant upon the burial of the
late Cardinal Beaudry. The Basilica,
which has only recently been re-
constructed and opened to the pub-
lic, presented a scene of colorful
beauty and majestic dignity while
the profoundly sorrowful services
were being recited.

At this year's Cross-country Ride
and Pow-wow of the Trail Riders
of the Canadian Rockies it is ex-
pected that approximately one hun-
dred riders will cover a new trail
which extends from Monty's Canyon
on the Banff-Windermere Road over
the Wolverine Plateau and past Lake
O'Hara to Hector, while between
200 and 300 are expected at the
Pow-wow near the Wapta Stagnation
Camp. While out west Field Mar-
shal Earl Haig signed on as a mem-
ber of the Trail Riders.

On the occasion of the departure
from England of a party of one
hundred school-teachers on board
the "Empress of Scotland" to visit
Canada and study educational meth-
ods here, His Majesty the King sent
the following message to the Inter-
national Education League: "His
Majesty congratulates the League
upon the happy consummation of the
undertaking which will give oppor-
tunities to study the educational
system in Canada and to gain an in-
sight into her history, development
and general resources."

That 69,000 harvesters would be
required to handle this year's crop,
of which the East would be expected
to supply 50,000, was the estimate
arrived at last week at a conference
of various governments held in the
Canadian Pacific offices at Wind-
peg. In the meantime the Canadian
Pacific Railway has taken all neces-
sary steps to transport the army of
harvesters. Their colonist cars and
special equipment has been over-
hauled and the company is now fully
prepared for its annual rush of har-
vesters.

George Morris Bosworth, Chair-
man of the Canadian Pacific Steam-
ships, who died in London, England,
on the morning of July 26th, from
septic poisoning following an opera-
tion for appendicitis, was with the
company almost from its inception.
He was 68 years old when he died.
He joined the Canadian Pacific Rail-
way in 1882 and was head of the
steamship service for nearly seven
years. When informed of Mr. Bos-
worth's death, E. W. Beatty, K.C.,
chairman and president of the com-
pany, stated that in his opinion Mr.
Bosworth had had no equal in the
country as a manager of railway
traffic and added that "the company
deeply regrets the passing of another
of the old guard, whose ability and
effort so largely contributed to the
company's success."
